

ECSBM 18

DUBLIN 2019

The place where Spectroscopy and Biology Meet

www.ECSBM2019.com

19th-22nd August, UCD, Dublin, Ireland

DEADLINES

Oral Abstract Submission – May 3rd

Early Bird Registration – May 24th

Theme & Topics

Development and Application of spectroscopic (including Raman, IR, UV-Vis, fluorescence, NMR, EPR) **& Imaging techniques to the study of biomolecules, cells, or tissues.**

Drug discovery • Medical spectroscopic imaging • Diagnosis of disease • Imaging • Structural and Mechanistic Studies of Proteins, Nucleic acids, Enzymes & membranes • Nanoparticles for Biomolecular Studies • Computational modelling • Nano-biotechnology • Anticancer research • Electron and Energy Transfer in Biomolecules • Emerging Techniques

CONFIRMED SPEAKERS

Duncan Graham
University of Strathclyde

John Kelly
Trinity College Dublin

Jens Bredenbeck
Goethe University

Ute Neugebauer
University of Jena

Thomas la Cour Jansen
University of Groningen

Andreas Barth
Stockholm University

Marloes Groot
University of Amsterdam

Steven Meech
University of East Anglia

Erik Nibbering
Max Born Institute

Klaus Gerwert
Ruhr-Universität Bochum

Lauren Webb
University of Texas at Austin

Maria Paula Marques
University of Coimbra

Catherine Kendall
Gloucestershire Hospital

Malgorzata Baranska
Jagiellonian University

Tia Keyes
Dublin City University

Donal O'Shea
Royal College of Surgeons in Ireland

Chairpersons

Dr. Susan J. Quinn, University College Dublin

Prof. Hugh J. Byrne, Technological University Dublin
